Both works are available at <http://www.mennonitegenealogy.com/prussia/> Users are welcome to copy and distribute these works in their entirety provided that no fee is charged for their distribution.*

## FAMILY BOOKS OF THE Danzig CHURCH BEGINNING 1789

Family Book 1 and Family Book 2 are companions to the volume entitled *Records of Prussian Mennonite Churches in the Vistula Delta – Births, Baptisms, Marriages and Deaths in the Danzig Church 1865-1943*. The contents in these family books have been similarly transliterated and digitized to a Brother's Keeper 6 (BK) file for distribution in gedcom. This Latin Script hard copy which can be electronically accessed from various online directories has been deposited in the Mennonite Historical Society of Saskatchewan Archives.

The original records were found on the web site of Mennonite Library and Archives in North Newton, Kansas (MLA) at:

[www.bethelks.edu/mla](http://www.bethelks.edu/mla).

In this hard copy, the page and frame numbers printed in red refer to the numbers of the frame or page as posted on that website.

The original records contained various spellings of given names, surnames and place names. In the BK6 file, place names are standardized to reflect the spellings in the GRANDMA project where possible. In this document, however, all names are listed as closely as possible to the way they were in the original record. Where the given names were abbreviated in the original records they have been entered as the full name using the usual and customary spelling of the time. The BK6 program utilizes a reference number which standardizes the various spellings of all given and surnames.

The dates have been standardized to the *dd/mm/yyyy* to comply with the BK6 format. Some dates were originally recorded on the basis of the Early Roman calendar which consisted of only 10 months. Hence, December was frequently written as Xber, the 10th month. November was sometimes written as 9ber for the ninth month and on less frequent occasions, October was written as 8ber and September as 7ber. Corresponding abbreviations of the names of the first six months were not used in these records.

After World War II, the Flemish Mennonite Church in Danzig was burned to the ground but some of its original records were rescued from

those ashes. Because many of the pages of those records were seared around the edges and some were water damaged, not all the information is legible.

From 1665 to 1789 the church records were compiled in four distinctly separate lists, namely births, baptisms, marriages and deaths. The recording of Family Books Vol. 1 and Vol. 2 began in 1789. A few pages of a third volume were also found with the original records. In some instances cross-referencing between these four sets of records makes it possible to fill in the blanks caused by the fire-damage to the original record books.

The loose pages of records at the Mennonite Library and Archives, North Newton, Kansas include the title page of Vol. 3 along with a few pages of data and those are included herein at the end of Vol. 2. The title page is not dated but it was presumably a sequel to Volumes 1 and 2.

From 1665 to 1789 the records of the Danzig Church were compiled in four distinctly separate lists, namely births, baptisms, marriages and deaths. In some instances cross-referencing between these four sets of records makes it possible to fill in the blanks caused by the fire-damage to the original record books. Much of the data contained in these four lists is repeated in these family books. The latter do add more information about individuals but their major contribution is to establish and/or confirm family linkages which cannot otherwise be made from the four separate lists.

This work does not pretend to be mistake-free since errors could have occurred at every stage of its development beginning with the initial recording and through to its final production. All residual errors, therefore, inevitably appear in the newly created BK6 file. Nevertheless, the end-product represents the best intentions and efforts of all who have contributed to its development which began some time before 1665 CE. After the initial publication, numerous errors, especially in the source references surfaced. This revised edition is an attempt to correct most of those. Some date errors and incorrect family linkages were also found and corrected.

The author who compiled these records in the digital and print forms consigns all rights and properties to the Mennonite Historical Society of Saskatchewan which is a registered charitable organization,

The author gratefully acknowledges the contribution of Ed Schmidt, John Tiessen and Jay Hubert in the development of this project. Ed Schmidt was pivotal in initiating the project. His

gentle guidance and constant encouragement were essential to its completion. The technical assistance from John Tiessen and Jay Hubert have added immensely to the level of accuracy that we have jointly been able to attain.

Ernest H. Baergen

## FAMILY BOOKS OF THE DANZIG CHURCH BEGINNING 1789

The Danzig Family Books arrange members of the congregation and their children in three different groupings that are interspersed with each other throughout the family books. The principle group lists names of spouses and their children with dates of birth, baptism, marriage and death in most instances plus the place of residence at the time the names were added to the list. The dates cited in this list reconcile fairly consistently with those in *Births, Baptisms, Marriages and Deaths in the Danzig Church 1665-1943* but variations do occur so the two need to be appropriately cross-referenced.

The second group is an arrangement of family names by alphabetical groups. Dates of birth are given for most on the list and dates of death for many of them. In some cases the spouse is identified. For the majority on the list, the name of the father is stated which greatly

assists in making or affirming family linkages.

The third group lists parts of families namely couples, sometimes with one or two of their children, along with some dates of birth, baptism, marriage or death. Even though these data may have been copied from original records, the dates cited are not always the same as those in the principle group above. Hence this group needs to be viewed with some caution and the data should be cross-referenced wherever possible with the data in the principle group above.

Names listed in one family book, or members of a family, may also be listed in the other family book. Anyone searching for family connections is encouraged to cross-reference extensively between the different Danzig records.

### Index - Family Book 1

*Page numbers refer to the black numbers at the bottom of each page.*
