

Those living on the Marienburg Castle Grounds: 1745

Glenn H. Penner (gpenner@uoguelph.ca)

During the summer of 2017 the Malbork (Marienburg) Castle displayed a document which included a map of those who lived or had property on Castle grounds in 1745. The map has a letter and number code with a guide to the letters and numbers. Below is a rough transcription of the guide with some parts translated. I have highlighted those who I strongly suspect were Mennonites. Note that there are names which were well known in BOTH the Mennonite and local German communities (such as Braun or Groening). These persons are more likely to not be Mennonite and are not highlighted.

Width and lengths appear to be given in Ruthen (Rods) and Füße (feet). The actual values of these units differed depending on location and time and I will not bother to speculate on the values in modern units.

If anyone can add to, or correct, the list below please contact me at the email address above.

My thanks to Jo-Ann Unruh for providing good, high resolution, images.

Consignation.
