

Prezechowka Gemeinde Households in the Vicinity of Schwetz, 1715 and 1719

Compiled by John D. Richert (jdrichert@aol.com)

August 2019

For those who are conducting genealogical research of the Groningen Old Flemish Mennonites in the vicinity of Schewtz, Prussia, the Hendrik Berents Hulshoff (H. B. Hulshoff or Hulshoff) diary written in 1719 is an invaluable resource. The Hulshoff diary was translated by Glenn H. Penner and can be found here: https://mla.bethelks.edu/archives/cong_15/hulshoff.pdf. Glenn Penner has also compiled a spreadsheet which analyzes the Alle Derks Membership List which was created about 1715 and was annotated by Hulshoff during his trip to the environs of Schwetz in 1719, see: <http://www.mennonitegenealogy.com/prussia/DirksBerentsPrzechowka.pdf>. Penner's analysis compares the Derks list with the Przechowka Church Records (PCR) and places GRanDMA Numbers next to each name for whom identification was possible. In a few instances Penner's assignment of GM numbers differs from ours, but in most cases we are in agreement.

H. B. Hulshoff also created his own list which contains considerably more names than the Derks list, in large part due to the fact he baptized 31 people on Sunday, 16 July 1719 [New Calendar]. It has been suggested that the Hulshoff list was perhaps created in 1733 when Hulshoff returned on a second trip. A careful review of the Hulshoff list confirms it must have been compiled in 1719 and not 1733. An example in support of this conclusion involves Peter Wedel (P-207) and Maricke Richerts (P-743). Neither Peter nor Maricke appear on the 1715 Derks list because they were too young to yet have been baptized. They both appear on the 1719 Hulshoff list and in each case they were living in their father's home. The PCR shows they married on 3 May 1720, less than a year after Hulshoff's visit to Przechowka. The 1719 list was checked in 1733 and marked to indicate which of the named individuals had died by then. The number of individuals named in the two lists totals 177.

With H. B. Hulshoff's list firmly dated to 1719 we can analyze it in greater detail; it is presented below. A few comments are appropriate here: (1) Each family spans just two generations (there is only one example of perhaps three) with the oldest born about 1660 and the youngest born about 1704. (2) The names listed were only those who were Old Flemish Mennonites while any Lutherans who were living among them or even married to members were excluded. (3) The PCR which was composed 65 years later does not contain full detail on most of these individuals, thus the 1719 list provides considerable additional detail which is otherwise unavailable. (4) The list is particularly useful because it gives the maiden name of all married women (including some widows) and provides the names of many women and men who are not mentioned in the PCR. (5) The names were grouped by housing unit which provides strong clues about family relationships.

The villages visited by H. B. Hulshoff included Przechowka, Konopat, Posterwolt, Schoensee, Jamerau and Horst. It appears likely that Posterwolt actually was Dorposch since nearly all of the names recorded for Posterwolt are listed in the PCR as having resided in Dorposch.

In the list we have listed residences by house number for each village. The house numbers are simply our contrivance using the sequence listed in H. B. Hulshoff's diary and have no other significance. The individual's names are spelled in a manner consistent with their names as entered (or might have been entered) in the PCR. P# entries coincide with their entries in the PCR. GM # entries are consistent with the GReDMA Online database as of this date. For P# or GM# entries which seemed less than certain we added a question mark following the number.

Additional comments outside the print margins and on the "[Lineages](#)" worksheet were used in this research for linking family connections and might not be supported with distinct sources in every case. The column labeled "Status in 1733" is only useful in identifying those who died between July 1719 and January 1733. The place of residence for those who were living in 1733 is uncertain and shown with a question mark. The Name Index contains 177 entries that were on the 1715 list, the 1719, list or mentioned in H. B. Hulshoff's comments.

NOTES:

1. Name is not mentioned in the Alle Dirks list of 1715.
2. "Reside in the new school" in Przechowka.
3. This is the only source which names her in this marriage.
4. Widower Hans Ratzlaff and widow Elske Beckers were married between 1715-1719. His wife who had died by 1733 is listed as Elske "Berents".
5. Maricke Swegelers was listed as the wife of Heinrich Voth in 1715 and as a widow in 1719.
6. It is very likely that Maricke Wedels (P-205) was the 2nd wife of Hans Frey (P-461) between Grethke Vohten and Buschke Vohten (P-1049).
7. Name is not mentioned in the Henrik Berents list compiled in 1719.
8. Efcke Schmiten, 837, married Adam Ratzlaff, 30, before 1725. Her given name is not in the PCR or GRanDMA.
9. GRanDMA and PCR list her as spouse of Georgen Funck, 476, not 477. Did she marry Georgen after the death of her 1st husband, Heinrich?
10. Brothers Jacob and Andreas Decker were living as single men at Schoensee in 1715. Both were married by 1719.
