

Schönsee (Culm) Baptism Records: 1862-1943

Extracted by John D. Richert (jdrichert@aol.com)

January 2020; Revised February 2020

These baptism records for Schönsee were extracted from the Mennonite Library and Archive (North Newton, KS) microfilm MF CHR 30; baptisms 1862-1944. The scans are viewable at: https://mla.bethelks.edu/metadata/cong_315.php. The frame sequence is scrambled somewhat but the only pages missing are baptisms for 1878, 1937, 1939, 1940 and 1942. It is likely that some of these years were simply skipped and are not missing. Except for the last page of the book, dated 1944, the entire document is devoted to recording baptisms, 698 in total. From 1862 through 1874 the baptisms were performed by Ältester Heinrich Bartel (1812-1874), GM-139393. In 1875 the baptisms were performed by Ältester Peter Bartel (1813-1879) from Gruppe, GM-139531. The record of these baptisms was entered by Lehrer Jacob Knels (1817-1904), GM-1334220. The baptisms from 1876 through 1900 were performed by Ältester Johann Stobbe (1839-1901), GM-830813. Finally the baptisms from 1901 through 1943 were performed by Ältester Johann Bartel (1866-1945), GM-828815.

The genealogical value of this record cannot be understated because it covers over 80 years of family history and provides the full names of mothers from 1876 forward. In addition there are numerous instances of notations, which we did not transcribe, which provide death dates and other details for many of these individuals.

In the following table we loosely adopted the format established by Ältester Stobbe. We sorted the names alphabetically and added GGrandMA numbers, if known. We did not perform an exhaustive search to find GGrandMA number matches but it appears the vast majority of these individuals are not listed in GGrandMA.

Printing Note: This document is formatted for 8½ x 14 inch paper. However, you can scale to legal size (8½ x 11).
