

Chortitza Mennonite Settlement Vital Records: 1809-1812

State Archives of Dnipro Region (DADO) Fund 134, Inventory 1, Files 268, 271, and 302

Translated and Edited by Tim Janzen

The following is a collection of vital records of births, marriages, and deaths that occurred in the Chortitza Mennonite Settlement during the period 1809 to 1812. These records cover most of the births, marriages, and deaths that occurred in 1809, 1810, and 1812, but only the events in November and December of 1811. The vital records found in these files vary in the amount of detail they convey. The names of children who were born in 1812 were frequently not given and only the name of the father was given. For some marriages in 1812 only the name of the groom is given.

The original documents were written in German and in many cases a duplicate copy was written in Russian. The original documents can be found in State Archives of Dnipro Region (DADO), Fund 134, Inventory 1, Files 268, 271, and 302. There are duplicate entries for some of the vital records in 1809. In some cases, the duplicate entries conflict with each other in terms of the names of the people or the date of the event. In some cases, the dates in the vital records are slightly different from dates for the same events found in either Mennonite church records or in family records. I have added comments about these discrepancies in the Grandma database.

Data is organized chronologically by village for each time period, as listed in the original sources. References to DSC_____ in the Comments section are to the image files made when the records were digitized. Additional information can be found in an [Excel file of this data](#). The Excel file allows one to sort by standardized surname and given name of head of household, and standardized surname and given name of spouse and family member.
