

Compilation of Mennonite Villages in Russia

Prepared by Tim Janzen and edited by Richard D. Thiessen

This table is a comprehensive compilation of 629 known Mennonite villages in Russia and Ukraine incorporating information from many sources. I used the list of 446 villages from the Deutsches Ausland Institut (DAI) documents (see Table 5 and Table 6) as a base and have incorporated information about additional villages from other sources such as the Mennonite Historical Atlas.

The villages of the four original mother colonies appear first in the table (Chortitza, Molotschna, Am Trakt, and Alt-Samara Colonies). These are followed by the various daughter colonies arranged chronologically by the year the daughter colonies were first established. At the end of the table are two small sections for Mennonite villages in Volhynia and for Hutterite villages. Swiss Mennonite village names are not included.

Essentially all of these villages were established before World War II. I have not attempted to include in this table a comprehensive list of locations in Russia where Mennonites were dispersed after World War II. Columns in the table provide the following types of information about each village if it is known:

1. Most common name (or names) for the village, which in most cases is the original German name for the village. Variant spellings are given in parentheses. The specific number for each village in the colony is given if this available.
2. The Russian name (or names) for the village. Variant spellings are given in parentheses.
3. The year the village was founded. These are in some cases estimates and may not be entirely correct.
4. The district and province in Russia where the village was located.
5. The name of the colony in which the village was located.
6. The name of the mother colony from which the settlers in that village came.

7. Various sources that provide additional details about that village. In some cases additional information may be found about certain villages in the Mennonite Historical Atlas even though that it isn't listed as one of the sources.

Additional tables are available:

- [Table 2: Compilation of Mennonite Villages in Russia, sorted alphabetically by German Village Names](#)
- [Table 3: Compilation of Mennonite Villages in Russia, sorted alphabetically by Russified Village Names](#)
- [Table 4. Compilation of Crimean Mennonite Villages](#)
- [Table 5. Original List of Mennonite Villages in Russia from the DAI Documents](#)
- [Table 6. Modified List of Mennonite Villages in Russia from the DAI Documents](#)
