

The Elbing Territory Census of 1811

Glenn H Penner

gpenner@uoguelph.ca

Scans of the original, which I obtained from the archives in Gdansk, Poland, can be found at:
https://mla.bethelks.edu/archives/cong_301/Nachweisung1812/.

Any information in the spreadsheet that is important to you should be checked against the original. If you see any discrepancies please email me at the address above.

Here are a few German terms which may not be familiar to everyone:

Einsasse – inhabitant

Einlieger – subtenant

Paechter – renter/tenant

Haeker (Haekenbudner) – one who operated a small general store

Leinweber – weaver

Schaenker – purveyor, usually of beer, wine, etc.

Schneider – tailor

Erben – heirs

GruetzmueLLer – Gristmiller

Arbeiter (Arbeitsmann) – laborer

Tagelohner – land laborer earning daily wage in kind (Deputat), lodging, some cash.

Krueger/Kruegpaechter -

The terms “male” and “female” refer to the original terms “Knecht” (male servant) and “Magd” (female servant). It is not always clear if these people were really servants or relatives living with the family.

In the last “comments” column I have given some comments and included some additional comments from the original. The comments from the original are exact transcriptions and given in quotation marks. The dates given in this column appear to be the date when the property became a “Mennonite” property, not necessarily when the owner purchased the property. For all other properties the term “Seit langen Zeit von Mennoniten bewohnt worden” (occupied by Mennonites for a long time) is entered.

Note the following:

- 1) Land ownership not given for all families
- 2) All surnames and first names have been standardized in order to make searching easier. Please note that the original spellings were given by the official who created the list and does not necessarily reflect how the household heads actually spelled their first or last name.
- 3) The families appear in this spreadsheet in the same order as in the original document.

Land measurement is given in Morgen and Ruten (Quadratruten), where 1 Hufen is equal to 30 Morgen and 1 Morgen is equal to 300 Ruten. According to Goertz 1 Morgen was 0.56 hectares (or 1.38 acres).
