

Burwalde, Chortitza Mennonite Settlement: 1926 Census

**State Archive of the Zaporizhzhie Region, Zaporizhzhie, Ukraine
Fond R-257, Opis (Inventory) 2, Delo (File) 2**

**Translated from Russian to German by Wilhelm Friesen, Detmold, Germany; translation
from German to English and GGrandMA Numbers by Glenn Penner, Winnipeg, Manitoba
(gpenner@uoguelph.ca)**

The first column is the family number, as it appears in the census.

The second column is the individual's number, as it appears in the census. Note that some numbers are missing in the original document. These are usually numbers for children given the age "0" years and, in some cases, those who immigrated.

The third column is the individuals name in the following format: surname, first name, patronymic. In a few cases the patronymic is missing from the original. Note that names have been converted to more recognizable standardized forms. Also note that some names are stroked out. These usually correspond to those who moved away or immigrated. Immigration to "Amerika" always meant immigration to Canada.

The fourth column is the birth date converted to the format day.month.year. A "00" in the day or month, or a "0000" year indicates that that part of the date was either unavailable or illegible.

The fifth column is the age, as it appears in the original.

The sixth column is the assigned number in the GGrandMA database. Yellow cells indicate that the person has not been identified in the database and has not been added.

The last column contains comments. Those in quotes are from the original document and those in square brackets have been added by Glenn Penner.

Grey cells indicate that the data was not available and/or not added.

It is interesting that the first name Julius is very prominent in this village. It appears 30 times in this census – more often than the name Heinrich! Most of these individuals were descended from Julius Klassen (1752-1804; GM#265383).
