

# Mennonite Deaths in the Chortitza/Rosenthal District: 1929-1932

**State Archive of the Zaporizhzhе Region, Zaporizhzhе, Ukraine  
Fond P5593 Opis 13 Delo 140**

**Translated from Russian to German by Wilhelm Friesen, Detmond, Germany;  
Translated from German to English and Edited by Glenn Penner (gpenner@uoguelph.ca)**

Only names which are recognized as traditional Low-German Mennonite surnames are included. Residence locations have been converted to the more recognizable German versions.

In some cases the ages of the parents are given under “Date of Death” when the death of a child is recorded. In those instances F = father and M = mother, with ages in parentheses.

The term “farm” below likely refers to one of the soviet collectives.
