

# **List of Germans Evacuated from the Volga Region in 1941: Residents of Am Trakt Mennonite Settlement**

**State Archive of Tomsk Region  
Fond R-800, Opus 1, Delo 138**

**Compiled by Konstantin Isaak and GRanDMA numbers added by Alexander Wiens**

Delo #138 was compiled by the District Executive Committee of the Council of Workers' Deputies of the Tugan District of the Novosibirsk Region and contains information about Germans who were forcibly resettled since 1941 from the Volga German Republic (Autonome Sozialistische Sowjetrepublik der Wolgadeutschen) to populated areas of the Tugan District of the Novosibirsk Region in Siberia.

The original file contains data not only on the descendants of Mennonites, but also on German Lutherans and Catholics. However, the attached table contains data only on the residents of the Mennonite settlement of Am Trakt – those born in the villages of Lysanderhoeh, Medemtal, Koeppental, Lindenau, Fresenheim, Hohendorf, Ostenfeld, Valuevka, etc. The table contains the surname, given name, and patronymic name for each family member, their relationship to the Family head, gender, year of birth, nationality, place of birth, place of residence, profession, and, for some, the original place of exile.

According to available information, the evicted families were sent even further – to the north of the Tomsk region, in 1942.

The second last column contains the number in the GRanDMA database. GRanDMA is a reference to the Genealogical Registry and Database of Mennonite Ancestry, version 25-03, published by Mennonite Genealogy, Inc., in March 2025. It should be noted that GRanDMA numbers can change over time, and so the numbers assigned to the individuals in this file may not remain accurate.

Explanations for the completed table:

1. If a first or last name is indicated, and another one is indicated next to it in brackets [ ], then the first name will be the one indicated in the archival file, and the one in brackets [ ] will be the one entered as a clarification by researchers from alternative sources. For example, Aron [Arthur]. Aron is a name from Fond R-800, Opus 1, Delo 138, [Arthur] is according to data from another, previously verified source.

2. The entry in the Comments column “52 Walu” means that this person is listed under number 52 in the list of residents from Walujewka on the website page <https://amtrakt.de/bewohner-von-walujewka-1921-22/>

... Med = <https://amtrakt.de/bewohner-von-medemtal-1921-22/> – Medemtal

... Fres = <https://amtrakt.de/bewohner-von-fresenheim-1921-22/> – Fresenheim

... Ost = <https://amtrakt.de/bewohner-von-ostenfeld-1921-22/> – Ostenfeld

... Hoh = <https://amtrakt.de/bewohner-von-hohendorf-1921-22/> – Hohendorf

... Orloff = <https://amtrakt.de/bewohner-von-orloff-1921-22/> – Orloff

... Koep = <https://amtrakt.de/bewohner-von-koepental-1921/> – Köppental

... Lind = <https://amtrakt.de/bewohner-von-lindenau-1921-22/> – Lindenau

... Lys = <https://amtrakt.de/bewohner-von-lysanderhoeh-1921-22/> – Lysanderhöh

Editor's Notes:

- The document is formatted for 8.5 by 14 inch paper
- The Page, Family, and Family members columns have been removed from the original file as they do not provide any genealogical information
- The Nationality column has been removed from the original file as all families were classified as German
- Those in red font might not be Mennonite
- The [full Excel file](#) is available to download
