

**Mennonites Living Outside Molotschna Colony in 1859**  
**Odessa Region State Archive Fund 6 Inventory 4 File 23949 pages 208-234**  
**From Molotchna Mennonite District Administration to Board of Guardians**  
**Compiled 30 January 1860**

The local administrations governing the foreign colonists in the Russian Empire had to report periodically (perhaps annually) to the Odessa Board of Guardians on the status of their colonists who were living outside of the colony. This file is a partial translation of the submission for 1859 from the Molotschna Mennonite District, which includes 181 families with about 920 individuals.

I attempted to transcribe all the personal names exactly as they appear in the original German. I made less effort to transcribe the place names, although most of them are roughly correct. I made only a minimal effort to translate the occupations. There are additional columns of information that presumably have less genealogical value that I did not translate. More detail on several of the columns can be found at end of the file. Be warned that the quality of the microfilm copy is poor, so there are a number of entries that could not be read or that may be questionable. Significantly, this list contains the residents of Hutterthal.

This list should be compared to a similar list from 1852, which is found at [http://www.mennonitegenealogy.com/russia/1852\\_Molotschna.htm](http://www.mennonitegenealogy.com/russia/1852_Molotschna.htm), and to the 1835 Molotschna colony census.

Thanks to Glenn Penner and Peggy Goertzen for providing the copies of the originals and to Richard Thiessen for formatting and corrections. Henry Schapansky provided many corrections and additional information - some of his alternatives are marked with "HS."

Microfilms of the original records can be found at

	wife Susanna	21						#1067
	son Jakob	1?						
	father Johann Waldner	75					Johann is most likely the grandfather of the husband Jacob	#260

Extracted from microfilm located at Center for Mennonite Brethren Studies, Tabor College, Hillsboro, Kans., and from a scan of the microfilm provided by Glenn Penner.

#### Explanation of Columns

1 - Whether family was present in 1852 list of Molotschna citizens outside the colony. I added this information - it was not in the original.

2 - Serial number from list

3 - Name and relationship of each person to head of household. I spelled the names exactly as in the original, except that I spelled out umlauts with an *e* and eszett as *ss*. I added a standardized surname to some entries to facilitate searching the document.

4 - Age as shown in original. The age for certain children has a mark like a degree sign - these are designated with an asterisk. It appears that those children were less than a year old, although it is not clear why some other children have an age less than a year shown, e.g., 1/2 or 1/4.

5 - Outside of colony since which year.

6 - Location of residence outside colony. Aleksandrovsk=Zaporizhzhia=Zaporozh'ye, Kreis=Uëzd=district, Bezirk=Okrug=district, Gebiets=colony, Kolonie=colony, Kronsdorf=Tsarskoe selo=Imperial village. For example, "Melitopol" means that someone lived within the city limits, while "Melipotol'skii uëzd" means that someone lived outside city limits but within the district. "Khortitsa Colony" means the entire colony and not only the village.

7 - Occupation - More of these could be deciphered by someone with better German. Landschaftswirt=agriculture, Akkerbau=crop farming, Gartenbau=gardening, Handel=commerce

8 - Where registered - I assume this is where they were officially registered in Molotschna colony but I can't read the column heading. I assume that where only a number is given that it indicates the farm in the village. But sometimes a village name and farm number is given that is different than the village under which the family is listed in the table - this may have indicated where an actual residence was different than where the family was registered or where they paid taxes.

9 - GRANDMA # - most of these numbers were added by Richard D. Thiessen

There are five more columns of information, one of which is the type of passport on which the family is out of the village. The other four I don't know.

Please contact me if you have any corrections or suggestions.
